

## Talking with the Expert: Dr. Erin Cameron

---

1. What does Dr. Cameron study at the University of Alberta?

---

---

2. What do you think she means by an “invasive species”?

---

---

3. Why were earthworms “wiped out” (extirpated) in northern Alberta thousands of years ago?

---

---

4. What research questions is she investigating?

---

---

5. What type of data does she collect?

---

---

6. How does she use the data you collect?

---

---

7. How will the data we collect help Dr. Cameron’s research?

---

---
